# LASER TAG FOR FUN

Ready, Aim...Fun!

## What is Laser tag?

Laser Tag is a new game for safe fun like a live computer game. Laser Tag equipment is 100% portable, tough, weather-proof & can be used either indoors or outdoors.

We use infrared, just like your TV remote.

Because there is no paint, no projectiles, it is safe and suitable for everyone. Phasers use an invisible & harmless beam & there's great light & sound effects.

Laser Tag is **INCLUSIVE**. Both men & women, boys and girls enjoy the game.

While many fete rides cater for younger kids, Laser Tag is also ideal for older primary and high school students.

## Sci-Fi theme is Ready, Aim Fun ...

With Laser Tag you can get real, get inventive and get everyone talking about your fete for weeks after your event. Laser tag missions are fun. Your mission, *if you choose to accept it*, is to tag the opposition team more times than they tag your team. Games run for around 5 or 10 mins of adrenalin pumping excitement. This is guaranteed value because everyone plays the whole time. Games often retail at \$5pp.

Our attention to detail, event experience, and understanding of the importance of your group's needs makes us the stand alone.

Our phasers have great sci-fi sound effects. Imagine an outdoor (or indoor) maze with feature 9 foot high rockets, loads of beams, not to mention the half-moons and pyramids.
